Work Experience

Odoo Customer Support Engineer

One Iteration For Technical & Computer Services • Kuwait

02/2026 - Present

Odoo Customer Support Engineer at One-Iteration, supporting ERP implementations and providing functional assistance across (Accounting, Inventory, etc.) and Custom modules. Focused on problem-solving, system optimization, and delivering efficient ERP solutions.

Education

Computer & Information Science | Software Engineering

Mansoura University • Mansoura, Egypt

08/2025

Bachelor's Degree in Computer Science – Software Engineering Department. Gained strong foundations in software development, algorithms, data structures, database systems, operating systems, and computer networks. Developed practical skills in designing, building, and testing software applications through academic projects and coursework. The program also emphasized software engineering principles such as system architecture design, software testing, and modern web development technologies.

Odoo Functional Course

Udemy • Online - Remote

03/2026

Completed the **Odoo Functional Course** on Udemy, where I gained practical knowledge in implementing and configuring Odoo ERP for real business scenarios. The course covered core Odoo modules including Sales, CRM, Inventory, Purchases, Accounting, Manufacturing, HR, Project Management, POS, Website & e-commerce and Odoo Studio customization. Through hands-on exercises and real-world business cases, I learned how to set up an Odoo database, configure modules, manage workflows, and apply best practices for ERP implementation and business process automation.

React - The Complete Guide 2025 - Front-End Course

Udemy • Online - Remote

01/2026

Successfully finished a comprehensive udemy react course focused on building modern, scalable front-end applications using React.

The course covers both fundamental and advanced concepts, with a strong emphasis on real-world projects and best practices.

Front-End Development Course

Information Technology Institute (ITI) • Mansoura, Egypt

09/2024

Successfully completed the ITI React Front-End Development course, gaining hands-on experience in building responsive web applications using React.js, JavaScript, HTML, and CSS. The program focused on modern front-end practices, component-based development, and real-world project implementation.

Front End Development Course

Consulting Of Computers & Information Center (CCIC) • Mansoura, Egypt

09/2023

Completed a Front-End Development training program at the Consulting of Computers and Information Center (CCIC), covering modern web technologies including HTML, CSS, JavaScript, Bootstrap, and React.js. The course focused on building responsive user interfaces and developing dynamic web applications using current front-end best practices.

Skills

HTML, CSS, JS, JSON, React.js, Typescript, Next.JS, Redux Toolkit, Bootstrap, Tailwind CSS, Framer Motion, Git, GitHub, Odoo ERP, Odoo Implementation & Configuration, Odoo Functional Support

Languages

Arabic, English
